

**BATTISFORD PARISH COUNCIL**  
**BATTISFORD PARISH CEMETERY REGULATIONS AND CONDITIONS OF USE**

Updated June 2026

**1. INTRODUCTION**

- 1.1 Battsford Parish Cemetery is a civil cemetery for the use of all residents of Battsford civil parish, of whatever religion, denomination or none at all. Although it is primarily for the use of residents of the parish who live or have lived within the parish boundary for the last 5 years, the Parish Council will consider enquiries from anyone outside the parish having a connection with Battsford.
- 1.2 Battsford Parish Council ('the Parish Council' or 'the Council') is the statutory burial authority responsible for the management of the Cemetery and for these Regulations. It is a Condition of Use that anyone using this Cemetery agrees to be bound by these Regulations.
- 1.3 The Cemetery provides for the burial of coffins in appropriately-sized graves, and urns containing cremated remains in smaller graves and the scattering of ashes in a designated area.
- 1.4 The Cemetery is a lawn type cemetery to allow ease of maintenance and will be mown regularly except for the wildflower and fauna area.
- 1.5 The Cemetery is a place of peace and quiet reflection. It is also a place of work. Please respect the special nature of the site, the needs of other users, and safety factors. Dogs are not encouraged in the cemetery but may be allowed if they do not cause a nuisance and are kept on a lead at all times. Any dog fouling **MUST** be removed by the owner
- 1.6 The rules which are in place are made so that a tranquil and dignified atmosphere can be maintained, and we ask for your cooperation.
- 1.7 To arrange a burial, or for any general enquiries regarding the Cemetery, please contact the Parish Clerk: Tel: 07864 742341      Email: [clerk@battsford-pc.gov.uk](mailto:clerk@battsford-pc.gov.uk)

**2 ADMINISTRATIVE & GENERAL**

- 2.1 The Parish Clerk keeps a Register of Burials and other records and is the primary point of contact for the Parish Council in its capacity as the statutory burial authority.
- 2.2 Only a gravedigger approved by the Parish Council may dig any grave, or place anything in the ground anywhere in the Cemetery, whether coffins, urns, or any other remains or objects. This is because the gravedigger knows the statutory requirements for depth and other dimensions, and s/he understands and has experience of the soil conditions.
- 2.3 Burials may take place with or without a religious or other ceremony. The bereaved is responsible for arranging for any officiating minister.
- 2.4 No animals or their cremated remains may be buried or have their ashes scattered in the Cemetery.
- 2.5 The Parish Council does not allow the reservation of grave plots in advance of need.

2.6 The Parish Council reserves the right from time to time to amend, or in its sole discretion waive, these Regulations and the Schedule of Fees and Charges.

### **3 BURIALS**

3.1 All graves in this Cemetery, whether for coffins or cremated remains, are made available by the Parish Council on the basis that they are 'private graves'. This means that the owner of the grave has the exclusive right to decide who is buried in that grave, and to erect a memorial stone on that grave. This right is called the Exclusive Right of Burial. Because this right is very important, further detail is given in Section 4 below.

3.2 A provisional booking for a burial should be made by telephone to the Parish Clerk.

3.3 The provisional booking should be followed up by the submission of a completed Notice of Burial, together with the appropriate fees, to the Parish Clerk at least 5 working days in advance of the intended date and time of the funeral. Receipt of the fully and correctly completed Notice of Burial will act as confirmation of the provisional booking.

3.4 No burial may take place without production to the Parish Clerk of a Certificate of Disposal or a Coroner's Order for Burial.

3.5 No burial may take place on Sunday, Christmas Day or Good Friday, other than in exceptional circumstances and at the discretion of the Council.

3.6 Burials may take place only between the hours of 10.00 am and 4.00 pm, except in exceptional circumstances and at the discretion of the Council.

3.7 The Council will not reserve grave plots for future use. Where plot reservations have occurred in the past and then are no longer required the parish council will refund the charge made minus 2 hours of the Clerks time for administration.

3.8 Siting of grave spaces shall be at the sole discretion of the Council.

3.9 Arrangements can be made with the parish clerk for the scattering of ashes in the designated area, with a memorial plaque if required.

### **4. EXCLUSIVE RIGHTS OF BURIAL**

4.1 An Exclusive Right of Burial (EROB') gives the owner the sole and exclusive right to decide who shall be buried in that grave. In the case of a new grave, the owner of the EROB will be the person who signed as the Purchaser on the Notice of Burial form. A legal document called a 'Grant of Exclusive Right of Burial' will be issued to the owner of the EROB. (For convenience only in these Regulations, such person is referred to hereafter as the owner of the grave, or the grave owner.) The Parish Clerk keeps a record of each grave owner and his or her contact details. The owner of the grave should inform the Parish Clerk of any change of address, or if he/she transfers the ownership to another person.

4.2 A grave will be opened for a second or further burial only at the request of the registered grave owner or where the burial is that of the registered grave owner.

4.3 Ownership of a grave also carries the sole and exclusive right to erect a headstone or memorial stone on that grave (subject to these Regulations) and also to apply to have that headstone or memorial stone modified, for example by the addition of wording relating to the second burial.

- 4.4 In the case of a grave in which the registered owner is being buried, all remaining exclusive rights in that grave will automatically be transferred to the person signing the Notice of Burial. The Parish Clerk will, on receipt of the Notice of Burial, record that person as the new registered owner, and will accept applications only from that person for any modification of or addition to the headstone or other memorial on that grave.
- 4.5 All rights attached to the Exclusive Right of Burial are suspended while any fees, charges or recoveries are outstanding against that grave owner.
- 4.6 These rights are granted by the Parish Council only for the use of the grave, they do not confer any rights of ownership in the land. An Exclusive Right of Burial for a grave in this Cemetery lasts for 100 years from the date of the first burial. At the end of that time the EROB will expire and cease to exist.

## **5. MEMORIALS**

- 5.1 Headstones (over a coffin grave) and memorial stones (over a cremated remains grave) may be erected over a grave or removed from a grave only at the request of the owner of the Exclusive Right of Burial, and subject to the approval of the Parish Council.
- 5.2 They may be erected only if they comply with the requirements set out in these Regulations and are approved in advance by the Parish Council. It is strongly recommended therefore that the grave owner applies to the Parish Clerk for approval of the design of any headstone or memorial stone, and the inscriptions to be carved into them, before the memorial mason starts cutting stone. In practice, the mason supplying the memorial will usually provide you with the necessary application form and submit the application on your behalf.
- 5.3 All memorials and their installation and removal must conform to the BRAMM Blue Book and comply with BS8415. No person or company who is not registered with the British Register of Accredited Memorial Masons (BRAMM) or the National Association of Memorial Masons (NAMM) will be permitted to erect a memorial or carry out other work in the Cemetery. Any of the installers must be supervised by a Licensed Fixer.
- 5.4 Headstones on a grave must not exceed 36 inches (91.44cm) in height above ground level, and 27 inches (68.58cm) in width and a minimum of 3" inches (7.62cm) in thickness. The stone must be of sufficient thickness to support its height and to withstand any reasonable force exerted upon it, and to ensure its stability. The foundation must be sunk into the ground so that its top surface is flush with or below the adjoining ground level.

Memorial stones must not exceed 12 inches (30.48cm) in height above ground level, and 12 inches (30.48cm) in width and be placed flush to the ground (Black granite or York Stone is preferred) This shall be laid flush to the ground. A memorial or flower holder maybe placed but must not exceed 12 inches (30.48cm) in height.

Should memorials which fall outside this policy be desired, the plot owner must first seek approval from the Parish Council before progressing. Each application will be considered on its merits and the Parish Council reserve the option to grant permission where it is felt that the proposed memorial is in keeping with the general aesthetics of the cemetery.

- 5.5 All headstones and memorial stones:

- i) must be in keeping with the other memorials in the Cemetery. Inscriptions must also be in keeping, not contentious or partisan, and not likely to cause offence. The Parish Council shall be the sole arbiter of what is acceptable.
  - ii) must be submitted, in design, to the Parish Clerk for approval by the Parish Council, to ensure that they comply with these Regulations; the wording for all intended inscriptions, whether initial or subsequent, must also be submitted to the Parish Clerk for approval.
  - iii) must be made of homogeneous natural stone and not artificially coloured. Memorials made of reconstituted, aggregated or man-made materials are not permitted.
  - iv) must not have photographs, other images or fixtures attached to them. Engraved motifs may be acceptable provided they are small and do not dominate the overall appearance of the stonework. Subdued colouring of motifs will normally be approved.
- 5.6 The location reference of the grave should be engraved on the plinth of headstones and on memorial stones to assist in identifying the correct grave when they are first installed, and subsequently after being removed for further inscriptions to be added.
- 5.7 The ground must be allowed to settle before a headstone or memorial stone is erected. This will be at least six months after the last burial.
- 5.8 Where there is provision in the stonework, two vases up to 4 inches in diameter per grave will be permitted.
- 5.9 Where a plaque is erected in the area designated for the scattering of ashes this should be 6"x 3" (15cm x 7.5cm) and the design approved by the parish council, which should be in keeping with other plaques in that area.
- 5.10 Only headstones and memorial stones are permitted. No kerbs, surrounds, railings, stone or other chippings, statues, sundials, bird baths, portraits, wind-chimes, windmills and the like, candles, trees, shrubs, photographs, holograms, laminated cards, seats, lights, toys, horizontal ledges or slabs, or any other thing not specifically permitted by these rules are permitted in the Cemetery. Anything placed or erected in the Cemetery which is not and has not been permitted may be removed by the Parish Council and disposed of, and the cost recovered from the grave owner.
- 5.11 Notwithstanding the above, in the case of the burial of an infant or child the Parish Council may allow, in its sole discretion and for an agreed period of no more than 18 months, childhood mementoes. The family should discuss this in advance with the Parish Clerk.

## **6. MAINTENANCE OF GRAVES AND MEMORIALS**

- 6.1 The grave owner is responsible for ensuring that the memorial is kept in good and safe condition. The Parish Council will not be liable for repairing damaged or fallen memorials, nor for any damage to or loss of any memorial howsoever caused, whether from theft, vandalism, third party negligence or anything else beyond its reasonable control. Grave owners are strongly advised to obtain insurance for their memorials. On at least an annual basis, councillor wardens appointed to the cemetery will make safety checks on memorial headstones. If the Council decides that any memorial is unsafe or unsightly it will notify the grave owner requiring the defect to be rectified. If the repair is not carried out within 6 months the Council may carry out the repair itself and recover the cost from the grave owner. If the memorial is considered to be very unsafe and a danger the stone will be laid down with respect and sensitivity.

- 6.2 The Council will remove anything which has been erected or placed on a grave without the prior approval of the Parish Council and recover any associated costs from the grave owner.
- 6.3 Natural flowers and tributes which are environmentally friendly are preferred. The Council reserves the right to remove and dispose of flowers, plants, floral tributes or wreaths and unsuitable artificial flowers which have deteriorated or become unsightly.
- 6.4 Visitors to the cemetery are required to take any unwanted or old items away with them and to keep the area free from litter.
- 6.5 The council shall be indemnified by persons carrying out any work in the cemetery against claims arising from all works. The council accepts no liability for claims arising from work carried out by third parties. The council accepts no responsibility for damage or loss however caused.

By Order of Battisford Parish Council

June 2026

Approved at the Council meeting on 16<sup>th</sup> June 2026

This replaces the previous regulations

Review Date June 2027
